Manpreet Mondair
Web Developer

After completing my Masters in Computer Science and three months of immersive front-end training, I'm looking for a full time web development position. I'm ready to work full-stack and I'm willing to learn new things. I'm looking for a team that will challenge me, support me as I learn, and let me make awesome things.

Skills

- JavaScript, JQuery
- HTML, CSS
- Bootstrap
- Bulma
- Materialize
- Gulp, Web Pack
- Create React App
- Microsoft Word, PowerPoint, Excel
- Database Management Systems
